

Swissma Building Technologies Sdn. Bhd.

Total Solution Provider in Roofing and Wall Cladding

Swissma's office and factory located in Seksyen 15, Shah Alam

Swissma Building Technologies Sdn Bhd was established with the expertise of European master-craftsmen and incorporation of European technologies, poised in providing high-end premium roofing and wall cladding system in Malaysia. Swissma together with its partners Sanko Metal Industries Co. Ltd (Japan) and Nippon Steel & Sumikin Bussan Corporation (Japan) provides total solution for roofing and wall cladding in terms of design, fabrication and installation. Swissma's Sanko range of metal roof has a proven track record in Malaysia since 1974, supplying

long length metal roofs to industrial buildings owned by foreign direct investors such as Intel, Infineon, First Solar and B. Braun just to name a few.

Swissma's total solutions are able to cater to all design requirements including buildings of three dimensional shapes, industrial buildings that require long length metal roof installation, residential homes, airports, institutional and commercial buildings. Their forte is the ability to provide value engineering to meet both technical and budgetary requirements.

Hartalega Factory in Sepang, Selangor
